

## Curtain Motor and Track

### Overview:

- supports remote/local control, time setting, scene management and linkage control. It can control the following devices:
  1. Shutter in the bedroom
  2. Shutter in the high windows
  3. Shutter on the balcony

### Features:

- Open or close the curtain by a touch or press on the switch panel or via App
- Supports time setting and linkage control to bring convenience
- noiseless design; stops when it encounters a problem
- Keeps the traditional operation method

### Properties/Specifications:

Communication Mode	IEEE 802.15.4 (Zigbee/SmartRoom)
Power Parameter	AC 220V±10%, 50/60HZ
Standby Power Consumption	<= 0.1W
Input Power	75W
Load Capacity	100KG
Rotate Speed	112R/Min
Rated Current	0.34A
Installation Method	Clamping Hold
Working Temperature/Humidity	-10°C~+45°C /<=96%RH (noncondensing)
Material & Color	PC, White
Dimensions (L*W*H)	250*53*71 (MM)
